### THE OFFICIAL INSTRUMENT BUNDLE FOR THE MOVIE, CONSISTING OF A HOHNER RECORDER AND THE GAME APP FROM CLASSPLASH

In the new fantasy movie **The Magic Flute** by producer Roland Emmerich and director Florian Sigl, 17-year-old Tim Walker (Jack Wolfe) comes from London to the Austrian Alps to attend the legendary Mozart boarding school to begin his singing studies. Not only does he have to fight for his place among his equally ambitious fellow students, but one night he discovers a centuries-old secret portal that catapults him into the fantastic world of Mozart's Magic Flute.

With the official instrument bundle consisting of a golden recorder and the games app from Classplash, HOHNER combines the excitement and magic of the film with the fun of a games app and the joy of learning the recorder. With **The Magic Flute** app, a game developed by music educators, kids and teens can immerse themselves in the story of the movie while playing and learn a real instrument: the recorder! So the family experience continues even after the visit to the cinema.
