- Standard Snare Wires
- Remo USA Heads

OSM

TuneSafe

Breathtaking power, unparalleled variety.

In keeping with this commitment, we are adding two new wood snare drums to our successful received KOMPRESSOR Series. They are equally powerful, responsive and versatile as their metal counterparts to cover a vast range of musical styles as your go-to wood snare drums.

These Made in Germany instruments project with a full and articulate sound, characteristic for SONOR drums. Their heavy beech shell is made using our proprietary Cross-Laminated Tension Free (CLTF) process and Optimum Shell Measurements (OSM). The slightly undersized diameter allows for perfect contact between the shell and the drumhead in all tunings. At the same time, TuneSafe lugs and Remo USA drumheads guarantee maximum tuning stability and a great sound right out of the box.

KS 1307 SDW #NAB

Kompressor Snare Drum, 13"x07", Beech, Power Hoops, Natural Beech Semi-Gloss

Item Number	11171001
EAN	4044661742752
UPC	829193743354
Gross Weight	4,5 kg
Net Weight	3,5 kg
Product Dimensions (DxH)	13" x 07"
Packing Dimensions (LxWxH)	49cm x 49cm x 27cm

KS 1406 SDW #NAB

Kompressor Snare Drum, 14"x06", Beech, Power Hoops, Natural Beech Semi-Gloss

Item Number	11171101
EAN	4044661742769
