

ORTEGA GUITARS SPEC SHEET

AMPLIFICATION SERIES | Acoustic Amplification

12 WATT BLUETOOTH® PREMIUM VINTAGE DESIGN POCKET ACOUSTIC AMPLIFIER W/ BUILT-IN EFFECTS

The PTWO, designed especially for acoustic guitars, offers lightweight and portable characteristics, making it suitable for indoor use and easy transportation outdoors. The built-in headphone output allows you to practice anytime and anywhere without disturbing those around you.

Additionally, with the Bluetooth® and AUX-IN function, the PTWO can also be used as a standalone Bluetooth® speaker. You can play along while you listen to Bluetooth® music, and it supports direct recording (OTG) via USB-C, providing flexibility for musicians on the go.
